

Health Agreement Signed

2-10-83

WAVE 2-10-83

Questions about the make-up of the Health Board detained city officials from signing Health District papers before. Phil Wright and the Commissioners were prepared to clarify problems and explain the composition of the seven member board (2 from Heber, 2 from the county and 1 each from Midway, Charleston, and Wallsburg), the funding (by a separate levy up to 2 mills and State Health Department grants) and directions (by state control).

The Council approved the signing of the agreement, and it was done.

This artist's rendition shows the exact location of the proposed Jordanelle Dam and reservoir. Note the

relocation of the Kamas turnoff, as it runs over the proposed dam, and the Highway 40 West.

Jordanelle Damsite gets go ahead from Gov's Consultants
